

# Climbing on the Community Center Climbing Wall

The MCC climbing wall will open for climbing on **August 3**.

Climbers will be able to scale the 38-foot wall on 6 vertical routes.

An MCC Climbing Wall Attendant will be on-site to harness, belay and guide climbers, clean and sanitize holds, enforce hand washing/sanitizing and social distancing.

Capacity will be 4 climbers per hour. Reservations will be made on the hour. Climbing wall schedule will be posted on our website.

Climbing is included with an MCC membership; the cost for non-members is \$5 per person. Reservations **must** be made and paid for online by 9:00 a.m. the day of climbing.

Climbers who are 11 years old and younger must be supervised by a responsible adult who may sit on the benches near the wall. Family and close social groups may reserve time and climb together. Individual climbers must maintain a 6-foot radial distance while waiting to climb. 1 climber will be allowed on the wall; other climbers will wait in designated areas off the wall.

## Climbers are asked to:

1. Wear a face mask at all times while in the building, including while climbing.
2. Check-in at Guest Services prior to climbing.
3. Wash their hands in the restroom for at least 20 seconds with soap and water before the first climb.
4. Maintain a minimum of 6 feet of social distance between anyone who is not a member of your family or close social circle.
5. Avoid touching other people (no handshakes, hugs, high fives, etc.).
6. Wait for climbing attendant's direction.
7. Wash or sanitize hands between climbs.
8. Stay home if you are sick.
9. Avoid close contact with people who are sick.
10. Practice good coughing and sneezing etiquette: move away from others, cover mouth and nose with a tissue or the inside of your elbow. Throw tissues in the trash and immediately wash hands with soap and water for 20 seconds.
11. Avoid touching your nose, eyes, and mouth.
12. Wear a cloth face mask if you are able.

## Climbing attendants will:

1. Wear a face mask.
2. Wash their hands with soap and water for 20 seconds before their shift.
3. Not come to work sick and avoid close contact with anyone who is sick.
4. Enforce procedures listed above.
5. Instruct climbers how to put on a harness and tighten the harness.
6. Belay and guide climbers and control usage with one climber on the wall at a time.
7. Disinfect holds as often as possible between climbers.
8. Disinfect holds after each shift using sanitizer and a microfiber cloth.
